Please REJECT XM's bid and listen to the NAB. XM is underhanded and went around the rules to come up with this plan. XM is putting hard working radio people out of work! Please allow local broadcasters to continue to serve the public as the license granted allows. XM is in it for the money and doesn't care one bit about people in the small local communities! Please do not allow XM to continue with this. Please accept NAB petition 04-160.
